this book is deeply personal to me i want to help others trapped in the same cycle of doing at the expense of being i know how lonely and soul crushing it feels but the good news is that it doesn't have to be that way i want to help you figure out what matters most in your life and challenge you to get busy yes busy spending your limited valuable time living life in harmony with your priorities believe me i've heard plenty of horror stories and seen firsthand the carnage that workaholism can bring to lonely families i've listened to numerous heart wrenching accounts of hurting marriages and wounded children and i've talked with a lot of really good people whose souls have been left drained and whose inner depth has been left dangerously shallow

4th revised edition of japanese for busy people the most popular japanese language textbook series in the world audio recordings are embedded in this enhanced ebook edition since it was first published

in 1984 the focus of the Japanese for busy people series has always been to teach Japanese for effective communication. Japanese for busy people ii the workbook for the revised 4th edition helps learners to comprehend plain forms of verbs, time expressions, conditional clauses, and other difficult elements of grammar that will enable them to master intermediate level Japanese. Learners can expand their vocabulary and hone their speaking, listening, reading, and writing skills through many exercises provided in the workbook.

Volume i dealt with survival Japanese for tourists and other short-term travelers and newcomers to Japan. Volume ii meanwhile turns to the basics of Japanese syntax. The book is by no means only about grammar; however, rather it is designed to help learners consolidate their understanding of syntactical structure through lessons that focus on how to talk about topics relevant to daily life. In addition to serving learners continuing from volume i, volume ii will benefit those who have already studied beginning Japanese to some extent but wish to brush up on syntax. Major features of Japanese for busy people ii revised 3rd edition will enable learners to progress smoothly through the equivalent of the latter half of a typical first-year Japanese course while gradually building speaking and listening skills. Learners approaching mid-beginner status often find themselves suddenly faced with syntax and vocabulary much more complex than what they have studied before. Such grammar and vocabulary do not appear as frequently in everyday conversation as those words and structures they have learned up to this point, necessitating that they spend ample time on review. Moreover, learners at this stage are expected to become familiar with verb tense and aspect, time expressions, conditional clauses, and other topics that require them to have a solid grasp of context and speaker intent. If they are to fully understand the differences in meaning conveyed by each Japanese word, Japanese for busy people ii helps overcome the above obstacles through grammar and content topics carefully selected to be appropriate to learners at this level of Japanese proficiency. The book is designed so that by practicing talking about each topic, learners will gradually and effectively acquire sentence patterns and vocabulary related to that topic. Like volume i, volume ii is organized into several large units, each covering topics grouped under a particular theme. In this way, the book enables learners to achieve a well-balanced understanding of grammar, sentence structure, and context.

Japanese for busy people is, as the title suggests, a concise course for busy students who want to learn natural spoken Japanese as effectively as possible in a limited amount of time. This worldwide bestselling series was prepared by a working group of experienced Japanese language instructors who viewed and tested the material in an authentic classroom environment.
